Health maintenance
through ultrasound.

An ultrasound approach for your head and body (Ultra-Ma)

Ultra-Ma

Dolphins' ultrasonic waves and Mozart

The same 30 kilohertz ultrasonic waves that dolphins give off grow to a 5 cm wavelength inside the human body, making for a soft approach. What's more, you can listen to Mozart's music through a bone conduction speaker as you relax at your leisure.

Ultra-Ma Ultrasonic device for the head

UM-123 / UM-123X

This is headband-type ultrasonic device.

- You can adjust the strength of the ultrasonic waves and the volume of the music.
- It contains 3 tunes by Mozart.
- You can connect to the external port to listen to any music you like.

Set contents

Control unit

Headband-type Ultrasonic device

Navy blue

Price

UM-123 ... ¥682,000 (tax included)
 < Specifications > Ultrasonic transducers are attached in 2 locations on the front portion of the headband.

UM-123X ... ¥880,000 (tax included)
 < Specifications > Ultrasonic transducers are attached in 2 locations on the front portion of the headband as well as 1 each on the left and right sides.

Ultra-Ma Ultrasonic device for the body

UM-124

These are 3 types of bodyband-type ultrasonic device. Use them on areas other than the head.

- The ultrasonic device for the body stimulates with ultrasonic transducers with about 10 times the intensity of the ultrasonic device for the head.
- The ultrasonic device for the body sends strong and weak waves through the body about 6,000 times/second, transmitting micro movements to your anatomy.
- Use the body band by wrapping it directly against the skin, or placing it against the area that concerns you.
- With the ultrasonic device for the body, you can choose from music oscillation (A model) or vibration (B model).
- You can adjust the strength of the ultrasonic waves and the volume of the music.
- It contains 3 tunes by Mozart.

Ultrasonic device + Vibration

< B model >

Please choose either the A model or B model.

Bodyband

The double band sets include 2 bodybands.

Price UM-124 ① ... ¥1,980,000 (tax included) < Contents > 1 bodyband-type A model
 UM-124 ② ... ¥3,080,000 (tax included) < Contents > 【double bands】 2 bodyband-type A models
 UM-124 ③ ... ¥3,190,000 (tax included) < Contents > 【double bands】 1 bodyband-type A model & 1 B model

* The bodyband is not worn over clothing, but rather directly against the skin.

Ultra-Ma Ultrasonic device for the head and body

Bp-21

This is a set of 1 headband-type ultrasonic device for the head and 1 bodyband-type ultrasonic device.

- The headband-type ultrasonic device for the head has 4 of the ultrasonic transducers used in the UM-123X model.
- The ultrasonic device for the body stimulates with ultrasonic transducers with about 10 times the intensity of the ultrasonic device for the head.
- The ultrasonic device for the body sends strong and weak waves through the body about 6,000 times/second, transmitting micro movements to your anatomy.
- Use the body band by wrapping it directly against the skin, or placing it against the area that concerns you.
- The ultrasonic device for the body comes with the A model, but if you prefer it can be changed to the B model.
- Use the ultrasonic device for the body and ultrasonic device for the head at the same time.
- You can adjust the strength of the ultrasonic waves and the volume of the music.
- It contains 3 tunes by Mozart.
- You can connect to the external port to listen to any music you like.
